- CAPA / Deviations
- GMP / GDP Principles
- ERP / MRP Systems

EDUCATION

B.S. Business Administration

AIU University

2013 – 2015

A.A. General Studies

Inver Hills Community College

1999 – 2001

International logistics leader driving multi-modal cost-out and supply-chain transformation.

Nine-plus years across import / export operations, multi-modal carrier management, customs compliance, and end-to-end supply-chain strategy. Demonstrated track record of cost-out execution, contract negotiation, and scalable process design across **ocean, air, drayage, parcel, and OTR** freight. Currently leading transportation analytics for a Fortune-1000 manufacturer, translating freight data into board-level capacity, S&OP, and savings strategy.

PROFESSIONAL EXPERIENCE

Transportation Analyst

CURRENT

FEB 2026 – PRESENT

Tennant Companies

Minneapolis, MN

- Lead transportation analytics across global inbound and outbound freight, modeling lane economics, carrier performance, and total cost-to-serve for a Fortune-1000 manufacturer.
- Architect routing and consolidation strategies that reduce premium freight, improve on-time-in-full (OTIF), and unlock multi-modal cost savings across ocean, air, LTL, TL, and parcel.
- Partner with sourcing, planning, and finance to translate freight data into S&OP inputs, capacity forecasts, and contract-leverage points for annual carrier negotiations.
- Drive freight audit, accessorial control, and rate-benchmarking initiatives, surfacing recovery dollars and structural savings across the network.

Logistics Specialist

FEB 2025 – FEB 2026

CHS Inc.

Inver Grove Heights, MN

- Owned total quality management, materials sourcing, and long-term logistics planning to advance enterprise initiatives across a high-volume agricultural supply chain.
- Coordinated cross-functional teams to foster idea exchange and accelerate execution on capacity, drayage, and cost-reduction projects.
- Analyzed departmental budgets to minimize expense and protect margin; identified market shifts and pivoted operations to capture upside.
- Managed drayage dispatch and on-site truck movement, advising drivers on load assignments and unload locations to maximize gate throughput.
- Communicated shifting priorities and risk to senior leadership, resolving friction points before they impacted service or revenue.

International Logistics Manager

FEB 2022 – DEC 2024

Timesavers LLC

Maple Grove, MN

- Coordinated overseas vendors and managed import activities across multiple continents and trade lanes, hitting service-level expectations and reducing landed cost.
- Developed and implemented supply-chain strategies that supported international business expansion across new markets.
- Negotiated ocean and air freight quotes with carriers; secured competitive rates and protected delivery windows under capacity volatility.
- Assigned HTS classifications, drafted SOPs, and managed customs / import-export workflows to ensure full regulatory compliance.
- Calculated freight cost from equipment dimensions and weight; secured competitive truckload quotes daily for domestic moves.
- Identified opportunities for cost reduction, material-flow improvement, and business development across the network.

Export Documentation Specialist

NOV 2016 – JUN 2021

Stone Arch Commodities

Minneapolis, MN

- Created, assembled, and delivered destination-specific export documentation in compliance with U.S. and country-specific export laws.
- Assigned HTS codes, procured AES numbers, and validated commercial invoices to ensure accurate, compliant, and timely shipment release.
- Coordinated with trading desks, freight forwarders, brokers, USDA, and customers across cross-functional international transactions.
- Monitored AP / AR for vessel transactions to ensure on-time payment and collection; ran sanctioned-party screening prior to document release.
- Submitted timely document instructions to freight forwarders, independent surveyors, and other third-party industry providers.
